

The concept map illustrates the core 112.GRC, which aligns with 117.Corporate Culture, establishes management through 151.Management System and ensures 130.Compliance with regulations. 113.Governance reflects the 117.Corporate Culture, oversees operations and guides the 122.Strategy. The 122.Strategy shapes the 121.Business model, which, in turn, delivers the processes aligned with 130.Compliance requirements. 130.Compliance adheres to industry standards, overseen by 113.Governance, which is influenced by 117.Corporate Culture. Additionally, compliance, in a certain way, is guided by 140.Risk Management which plays a crucial role in managing and mitigating risks, including those related to ensuring standards and reg. compliance, plus guiding the business model's strategy for success.
