

[401] **Enterprise Architecture (EA)** integrates [400] **IT Strategy** with business strategy. [400] **IT Strategy** may involve [410] **Digital Transformation**, which motivates its improvement. It must be planned considering [460] **Technical Debt**, that can be identified through auditing by a [490] **Consultant**.

A [490] **Consultant** can be hired to provide advice on [401] **EA**, [400] **IT Strategy** and [410] **Digital Transformation**. In particular, can provide insight on [410] **Digital Transformation**, driven by [480] **Artificial Intelligence**, [430] **Hyperautomation** and [450] **Cloud Services**.

[410] **Digital Transformation** is supported by strategies developed by [401] **EA**. [401] **EA** is improved by [402] **Knowledge Management**, and delivers signature-ready recommendations to the [111] **BoD**, which defines [400] **IT Strategy**.
