Conceptual Map

This map shows the links between governance elements. Corporate culture [117] forms the base, shaping governance [113] principles. The BoD [111] oversees governance, ensuring compliance [130] with regulations. Compliance informs risk management [140], addressing stakeholder [104] concerns. Stakeholder interests influence compliance. Innovation fosters a culture of proactive risk management. Ethics [118] underpin culture, drive compliance, and guide governance. Accountability [110] is verified through audits [132], ensuring governance integrity. Audits inform BoD [111] oversight, emphasizing their role in effective governance [113]. These connections provide a holistic view of governance [113], emphasizing the integration of values and practices to achieve objectives.
