

99183- Beatriz Militão

The cmap shows how [401]Enterprise Architecture is central, providing a strategic framework for [400]IT Strategy. It underlines [410]Digital Transformation as a beneficiary of this framework, while also being impacted by [460]Technical Debt. [490]Consultant refines these strategies, enhancing organizational processes and increasing the [491]Value Proposition. [491]Value Proposition is supported by [400]IT Strategy, which emphasizes the need for [420]Competence, vital for implementing [430]Hyperautomation. [451]Hybrid Cloud technology enables [430]Hyperautomation and is secured by [442] IAM, showing the importance of security in digital operations. The map represents the dynamic interrelations necessary for fostering technological advancements and strategic IT development in organizations.
