

This conceptual map outlines the interrelationships between key **IT operational and management concepts**. **[300] IT Service Management** forms the foundation, supporting **[321] Business Continuity** and coordinating **[343] Project Management** **[384]**.

[343] Project Management oversees **[350] Application Migration** and manages the current **[342] Project**.

[321] Business Continuity is enhanced by **[382] SecOps** and is ensured by the **[390] Chief Operating Officer**, who oversees this entire structure, ensuring strategic alignment across **[384] FinOps**, **[382] SecOps**, **[381] DevOps**, and **[389] XOps**, facilitating management.

Finally, **[382] SecOps** collaborates with **[381] DevOps** and **[384] FinOps** optimizes **[389] XOps**.
