

The **[100] Organization** seeks **[410] Digital Transformation**. To achieve these uses **[420] Competence** and **[270] Human Capital** (from the company) to improve the **Operations** that compose or “define” the **[100] Organization** itself.

[460] Technical Debts adds costs to the **Operations**, in the forms of problem identifications and resolution in the future.

[100] Organization has defined an **[400] IT Strategy** that plans the **IT Infrastructure**.

[100] Organization uses the **[401] Enterprise Architecture** to organize the **IT Infrastructure** and align the **Business Goals**.
