

1.

This conceptual map explores the interconnections of the governance through [113] Governance, centrally managed by [191] CEO, who is responsible for the strategic decisions. [117] Corporate Culture enhances [222] Confidentiality, vital under [241] GDPR, influencing [130] Compliance. [140] Risk Management supports [149] ERM, crucial to [152] Integrated Management System, which also aids to manage [260] Provider compliance. This framework shows how governance integrates strategic, legal, and operational aspects, focusing on risk and data security within a compliance structure.
