

BoD is creates the decisions(policys, rules, standards, goals etc..) that shape the Corporate Culture. The BoD is also responsible to enforce the compliance, meaning enforcing the decisions they made. The Decisions establish GRC (governance, Risk Management and Compliance).

Corporate culture is shaped by decisions made, but is also influenced by risk management, to ensure employees dont engage in risky behaviours to the company.

The culture and Risk Management reduce Risk making Risk Consequences lower. Risk consequences impede Business Continuity.
