

This concept map is divided into three main subgraphs. "Governance" is led by Governance, which establishes and monitors Regulatory Oversight and directs Strategic Planning. Governance also shapes the Corporate Culture within the "Culture and Compliance" subgraph. Here, Corporate Culture is shaped by Ethical Values and influenced by Stakeholders. Ethical Values guide Compliance, enforced through Internal Audits in the "Risk and Audits" subgraph. Risk Management assesses Vulnerabilities and informs Governance, fostering Strategic Planning and consulting Stakeholders. Compliance addresses Vulnerabilities, and Ethical Values embed ethical standards in Risk Management. Stakeholder dictates influence Compliance, and Regulatory Oversight sets standards for Internal Audits.
