

In this concept map, Governance serves as the overarching framework encompassing Compliance and Risk Management within organizations. Corporate Culture emerges as a significant influencer, shaping the organization's values and behaviors. At the center of the map lies the concept of 'Organization', serving as the basis that connects various other elements in the concept map. Organizations actively engage stakeholders through communication and shared objectives, all while adhering to ethical principles that inform policy decisions. The Board of Directors (BoD) assumes a pivotal role in ensuring organizational integrity, emphasizing accountability and responsibility in governance.
