

1. Concept Map

2. Description of Concept Map

The concept map displays how **[113] Governance** steers organizational direction, ensuring **[130] Compliance** and guiding **[140] Risk Management**, while being shaped by **[117] Corporate Culture**. Governance is operationalized via a **[151] Management System**, which is part of a broader **[152] Integrated Management System**. **[150] Management** enforces governance within an **[119] Organizational Structure** that defines roles and influences culture. **[159] Maturity** reflects organizational development in management, compliance, and risk management. **[149] Enterprise Risk Management** represents a strategic layer of risk management. This map illustrates the interplay of governance concepts within an organization.
