

The conceptual map outlines the core components of effective business governance. Central to the map, [113] Governance is directly influenced by [111] Governing Body and overseen by [139] CCO, ensuring regulatory and ethical compliance within the organizational framework. The map emphasizes the role of [117] Corporate Culture and [118] Ethics in shaping governance, directly connected to strategic decisions ([120] Strategy). Risk management ([140] Risk Management) is depicted as a critical governance function, responding to [143] Risk Events and managing their [144] Consequences to minimize impacts. [130] Compliance links regulatory requirements back to governance, completing the cycle of oversight.
