Essay 4

Conceptual Map:

Description of Cmap:

A business organization, an entity formed for the purpose of carrying on commercial enterprise, has an Enterprise Architecture which could strive for Digital Transformation. At the same time an organization must have maturity and strategy and must also assure continuity with the clients. Governance of IT, part of an organization, is responsible for enterprise architecture and defines IT Strategy which is also part of EA and Strategy. Technical debt, is the implied cost incurred when businesses do not fix problems that will affect them in the future, shows the lack of maturity in an organization and can be a threat to such organization. It can also affect continuity with clients.
