The Map shows how different concepts of Business Governance are connected to each other. The [111] board of directors is responsible for a whole organization. To ensure operation according to the [104] stakeholders' interests, the [111] BoD is overseeing the organizations' [113] Governance, [140] Risk Management and [130] Compliance. A well set up [170] corporate culture resembles a foundation for well working [113] Governance. Moreover, a [151] Management System helps the [111] BoD to achieve their goals and to do their [150] Management. Ultimately, the [111] BoD needs to understand the company's competition to gain [159] maturity.
