

Project

Delivery P2 (Consolidation Phase)

Security and Management of Information Systems
2023/2024

Project - The process...

- ~~1. *Get your business and driver*~~
- ~~2. P1: Do the research and deliver~~
 - ~~• **PDF business report + PDF business slides**~~
 - ~~• **PDF driver report + PDF driver slides**~~
3. P2: Consolidate (aggregates of P1 groups)
 - *Check the aggregates of groups made by academia...*
 - **Group delivery of monography: PDF slides + Video (3 minutes) + Google form**
4. Discuss it
 - **Workshop: watch the videos and take part in the discussions...**
5. P2: Deliver
 - **PDF File (P2 Report)**

Project – P2 phase

Three P1 groups have been merged to one P2 group.

There are groups which workshop will be in Alameda (P2Axx) and groups which workshop will be in Tagus (P2Txx).

The P2 groups and the respective P1 groups can be found at the course dashboard and Fenix.

Project – P2 phase

The goal for P2 is to:

1. Write a report that provides a viewpoint characterizing the relation between one of the three business domains and one of the three drivers analyzed in each of the P1 groups. You are free to choose any combination of business domain and driver as long as it is one that your P2 group analyzed during P1.
2. Prepare a video presentation consisting of a set of six slides to present in the workshop (3 minutes maximum).

This deliverables must follow the **templates provided for this purpose.**

Project – P2 phase

Regarding point 1 in slide 4, an example...

P2 Group ID	P1 Groups			G1 Industry	G1 Driver	G2 Industry	G2 Driver	G3 Industry	G3 Driver
<u>P2A01</u>	P1A01	P1A21	P1A31	K-Real Estate	A-SustainableIT	G-Transportation	M-IoT	M-Health	R-CyberInsurance

It means that group P2A01 can deliver a report and presentation that:

1. Relate “Real Estate” (K) with each of the three drivers (A, M and R);
2. Relate the driver “IoT” (M) with each of the three industries (K, G and M);
3. Or any other combinations, as long as, the industries and drivers belong to your P2 group...

Project – P2 phase

Still regarding point 1 in slide 4, some remarks. If you deliver a report and presentation that:

- a) Relate a single industry with each of the three drivers: In the presentation, always use the same information about the industry in slides 2, 4, and 6;
- b) Relate a single driver with each of the three industries: In the presentation, always use the same information about the driver in slides 2, 4, and 6;

Project - Milestones

Ms4 – **Until** 13th May: Academia will announce the P2 groups clusters and publish the assignment.

Ms5 – **Until** 27th May at 12:00: P2 groups must deliver the workshop Slides and Video through Fenix.

Ms6 – **On** 28th May (Taguspark) and 29th May (Alameda) during class: Face-to-Face Workshop.

Ms7 – **Until** 31st May at 12:00: Each student must fill a P2 assessment Google Form.

Ms8 – **Until** 4th June at 23:59: P2 groups must deliver the consolidation phase deliverable (PDF Report) + each student must fill a project feedback Google Form.

We will also have Zoom sessions every Tuesday and Thursday

From 18:00 until 19:00

<https://videoconf-colibri.zoom.us/j/4217302423>

I will join the room at 18:00 and wait until 18:15, if no student joins, I will close the session.
