

Figure 1 - Business Governance Conceptual Map

The concept map illustrates the interconnections of ten key concepts within an organization. [113] Governance influences [117] Corporate Culture, which shapes the [111] BoD. The [111] Governing Body is accountable for [130] Compliance and oversees [140] Risk Management. [130] Compliance is monitored through [132] Audits, while [140] Risks are mitigated through [146] Control Risk. [116] Policy defines the [151] MSS, which is led by [190] CxO. The [151] MSS, in turn, supports the implementation of [113] Governance, [130] Compliance, and [140] Risk Management within the organization. The map highlights the critical roles of the [111] Governing Body, [190] BoD, and the [151] MSS in ensuring effective [113] Governance, [130] Compliance, and [140] Risk Management within the organization.
