

[322] Business Impact Analysis (BIA) gauges the effectiveness of [401] Enterprise Architecture (EA) at guiding [400] IT Strategy.

[400] IT Strategy receives advice from [490] Management Consulting and uses it to outline [410] Digital Transformation (DT).

[410] Digital Transformation (DT) greatly improves the [320] Continuity (Organization) but should be overseen by both [265] C-SCRM / Cybersecurity Supply Chain Risk Management and [343] Project Management to guarantee proper [250] Cybersecurity (Security) and [460] Technical Debt (TD) respectively.
