

The concept map demonstrates that Governance holds ultimate accountability for the Business Organization, develops Policy encompassing Ethical Values, and coordinates Risk Management. Corporate Culture aligns with and promotes Direction / Objectives, impacts Stakeholders, and affects Risk Management strategies. Policy and Ethical Values are built into the Corporate Culture, which also promotes Ethical Values. Stakeholders influence objectives, engage in governance, and maintain Responsibility/Accountability. Compliance ensures adherence to laws and policies while Responsibility and Accountability at all levels of a business organization and their Stakeholders are essential for achieving organizational objectives.
