

Conceptual Map IT Strategy

Vicente Caldeira - 100111

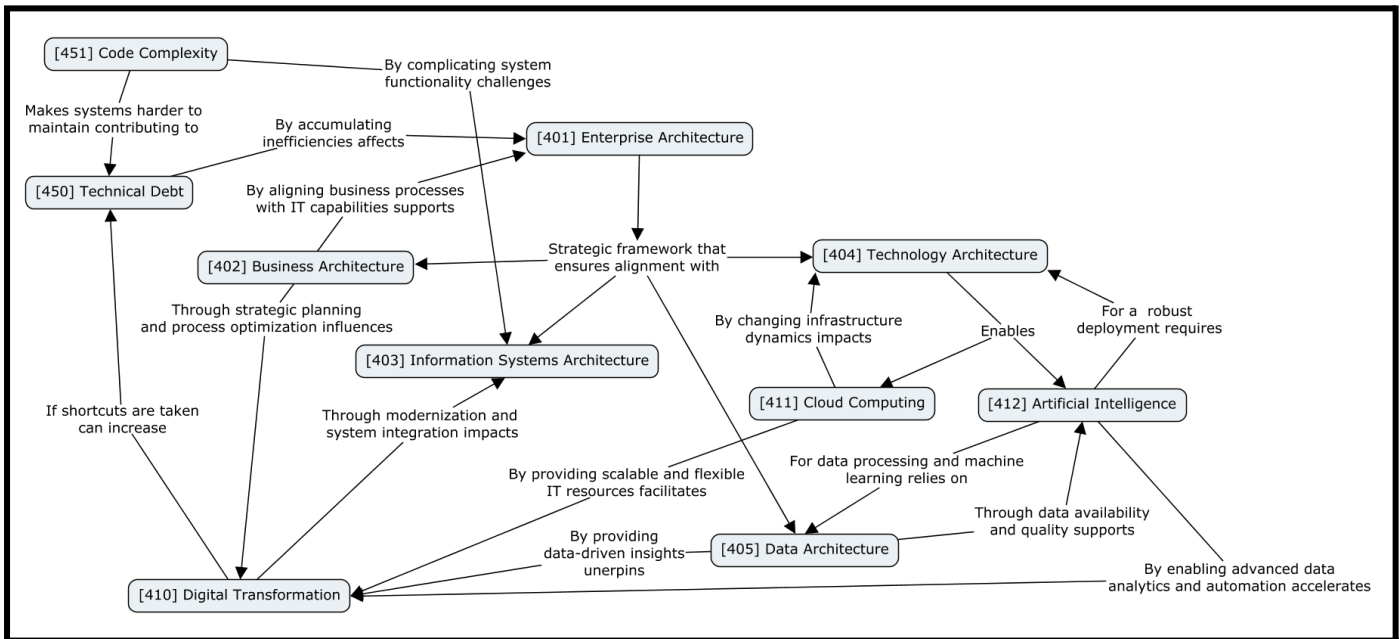

fig 1. CMAP

The concept map integrates [401] Enterprise Architecture, [410] Digital Transformation, and [450] Technical Debt with their related concepts. [401] EA includes [402] Business Architecture, [403] Information Systems Architecture, [404] Technology Architecture, and [405] Data Architecture, forming the backbone of organizational alignment. [410] DT leverages [411] Cloud Computing and [412] Artificial Intelligence to innovate and optimize processes. [450] Technical Debt highlights the pitfalls of hasty solutions, leading to [451] Code Complexity and potential rework. These relationships underscore the strategic interplay between business processes, IT infrastructure, and technological advancements.
