Project
Introduction and Next Steps

Security and Management of Information Systems
2023/2024

Project - The process...

1. *Get your business and driver*
2. P1: Do the research and deliver
   - **PDF business report + PDF business slides**
   - **PDF driver report + PDF driver slides**
3. P2: Consolidate (aggregates of P1 groups)
   - *Check the aggregates of groups made by academia...*
   - **Group delivery of monography: PDF slides + Video (3 minutes) + Google form**
4. Discuss it
   - **Workshop: watch the videos and take part in the discussions...**
5. P2: Deliver
   - **PDF File (P2 Report)**

Project - Milestones

Ms1 – **Until** 25th April: Academia will confirm P1 groups, industries and drivers.

Ms2 – **Until** 4th May at 12:00: Groups must deliver the P1 report.

Ms3 – **Until** 6th May at 23:59: Each student must fill a P1 assessment Google Form.

Project support

Use the Moodle Forum "Project" to ask any questions regarding the project.

Project support

We will also have Zoom sessions every Tuesday and Thursday

(Starting on the 23rd April)

From 18:00 until 19:00

https://videoconf-colibri.zoom.us/j/4217302423

I will join the room at 18:00 and wait until 18:15, if no student joins, I will close the session.

Project – P1 phase

The goal is each group to provide a viewpoint characterizing:

A. Business Domain

- A description of the business domain and its context from the perspective of Theme 1.
- An analysis of the main challenges in relation to the use of IT in the business domain assigned.

B. Driver

- A description of the driver and its relevance from the generic perspective of this course.
- Give examples of real cases where something relevant related with the driver has been a success or deemed as a failure.

This deliverable must follow the templates will be provided for this purpose.

Project – P2 phase

To be annnouced after the delivery of P1…
