Manuel Albino - 99102

In this concept map, **[343] Project Management**, **[321] Business Continuity**, and **[300] IT Service Management** serve as central pillars.

[321] Business Continuity involves **[140] Risk Management (GRC)**, while **[300] IT Service Management** defines **[303] SLA** and satisfies the needs of **[104] Stakeholders**. In the center, **[343] Project Management** helps planning **[321] Business Continuity**, improves **[300] IT Service Management**, addressing **[104] Stakeholders** needs, and managing **[342] Projects**.

[342] Projects are part of **[341] Programm/Programme Components**, both of which align with **[120] Strategy (Business Organization)** through **[340] Portfolio/Portfolio Components**.
