[112] GRC ([113] Governance,[140]Risk,[130]Compliance) is the foundation for building a sustainable organization. Strong [113] governance and [104]stakeholder focus guide [112] GRC, which then supports [140] risk management for goals and ensures [130] compliance. This fosters the creation of sustainable [116] policies and leverages [138]RegTech to manage [130] compliance, all overseen by the dedicated [139] CCO. Ultimately, [112] GRC plays a crucial role in shaping the organization's long-term [120] strategy to integrate and sustain these practices, while also influencing the development of a [117] corporate culture that prioritizes these goals. By proactively managing risks and ensuring ethical operations, GRC empowers the organization to navigate the complexities of a sustainable future.
