Diogo Falcão ist99199

The central concept, [400] IT Strategy, guides and aligns with [401] EA / Enterprise Architecture, which provides a blueprint for [410] Digital Transformation.
[401] EA supports integration of [450] Cloud service and includes frameworks for [430] Hyperautomation.
[410] Digital Transformation leverages [401] EA, accelerates with [450] Cloud service, and enhances through [430] Hyperautomation.
It requires [420] Competence (HR), which develops necessary [423] Talent management and mitigates [460] Technical debt.
[451] Hybrid cloud enhances flexibility of [450] Cloud service and balances [460] Technical debt.
Finally, [491] Value Proposition is articulated through [410] Digital Transformation and attracts through [423] Talent management.
